"Most cats really enjoy interaction," Dr. Perry says. "Finding what your cat likes, whether it's cuddle time with you or a favorite toy that is like a security blanket, can relieve stress." Finally, if your cat is seriously stressed, a form of temporary anti-anxiety drug therapy prescribed by your veterinarian may be warranted, she says.

Cats that Lick Too Much | Cornell University College of ...
Every cat -- whether indoor or outdoor -- should see the vet at least twice a year for an exam and regular regimen of vaccines, and all cats need to have some form of identification, Cruz says. You can either buy a collar with a tag (but make sure the collar has a safety clasp that will release if your cat gets caught on something), or invest in a microchip that is implanted between your cat ...

But you can't tell if your cat has a fever by feeling for a warm, dry nose, as many people believe. The only way to know for sure -- with either a human or a cat -- is to take its temperature. A normal temperature in cats ranges from 100.4° to 102.5° Fahrenheit. A fever in cats occurs when temperatures rise above 102.5° F.

Fever in Cats: Symptoms and Treatments
While cats make purr-fect pets for some people, they don't for others. Cats are dependent on their owners for all their needs — food, water, medical attention, exercise, shelter, and, most important, companionship. For many people, the years of unconditional love and devotion they receive from their furry "kids" far outweigh the daily responsibilities. But [...]
