It's easy to search Wikibooks by topic, and there are separate sections for recipes and childrens' textbooks. You can download any page as a PDF using a link provided in the left-hand menu, but unfortunately there's no support for other formats. There's also Collection Creator - a handy tool that lets you collate several pages, organize them, and export them together (again, in PDF format). It's a nice feature that enables you to customize your reading material, but it's a bit of a hassle, and is really designed for readers who want printouts. The easiest way to read Wikibooks is simply to open them in your web browser.

Financial Statements A Step By

Financial Statements by Thomas Ittelson is - as says on the front cover of the book - "a step-by-step guide to understanding and creating financial reports", and does just that brilliantly. The author manages to make rather difficult business concepts palpable to the laymen reader.

Financial Statements Definition

Also called a statement of financial position, a balance sheet is a financial snapshot of your business at a given date in time. It lists your assets, your liabilities and the difference between the two, which is your owner's equity, or net worth. The accounting equation (assets = liabilities + owner's equity) is the basis for the balance sheet.
