A testament to the fact that this is a personal account, Watson describes Crick as loud, boisterous, and "enormously excited." Just like in anyone's own account, Watson's opinions and biases shine through in The Double Helix. These biases come to light again in his utterly frank descriptions of Rosalind Franklin.

Gossip, backstabbing, petty squabbles, arrogance, snobbishness, and misogyny take a front row seat in this personal account of how the double helix structure of DNA was discovered. I expected more from Watson's book. And then there is the question about Rosalind Franklin's contribution to the discovery.
